

Take Back My Meds Drop Box

**Take back your meds today and
save the life of someone you love!**

**Why take back your unused
medication?**

70% of opioid addictions start at home – often from unused medicine left in the medicine cabinets.

Flushing unused medicine down the toilet or placing it in the trash only sends it to Lake Michigan and our waterways – the source of our drinking water – because waste treatment systems are not designed to break down medicine.

**There's only one safe way to dispose of
unused prescription medication: at a
drug take-back site.**

Outreach Community Health Centers is dedicated to making it easier for you to combat the opioid crisis by helping you safely dispose of unused prescription medicine at our secure take back my meds drop box.
